It is a pleasure to return to you in this new year. Thank God that in his infinite mercy he has allowed it.

Dear brothers and sisters, it is our wish that all may be well and that this new year be better in all things than last year, especially in the spiritual life, that they have good health and in the progress of the work of the Lord in their locality.

As for my health, thank God, progressively I continue recovering physical conditions that allow me to be more active day by day in the work of God. Some

sequels that have been left, thank God I manage them well and do not prevent any performance.

THE WORK IN MATURIN CENTRO.

We give glory to God for the beautiful beginning of the year in the work of God, in Maturin center.

The information I forwarded it in an extraordinary bulletin last December and in the ordinary of the end of the month.

Indeed, on Sunday 8, there was the unification of the church of Barrio Bolivar with the church of the center in a single congregation in the center of Maturín. Again we glorify God, because we also unite ourselves in worship, in service to God, talents, effort, etc.

EVANGELISM.

Last December we baptized four people who were contacts with those who were studying, are now members in downtown Maturín. While new brethren are taught in the doctrine and counsel of God, we are also looking for new candidates or contacts to evangelize.

BAPTISM. Mrs. **Nercy V. Rojas** (67), Is a person who has spent about 30 years in sectarian churches, was invited to visit the worship meeting on Sunday 15, she actually attended, when I left I offered a Bible study in her house and on Saturday 21 we had

baptized her for the remission of sins. In order to continue teaching the doctrine, we have organized a Bible class on Wednesdays at home, where the other new baptized have also been integrated, and we hope to incorporate other non-Christian people. We give glory to God for this soul that has obeyed the faith for its salvation.

OTHER FIELDS. We are praying and planning for the work in two other distinct locations in this country.

1.- Valencia, Carabobo State.

In this city, in past years we worked with the purpose of establishing the faithful church. But unfortunately, the people did not stay, so now there is no church in Valencia.

Nonetheless, a new opportunity is presented, which we believe, that by working with people with whom we are in contact, we can consolidate the work.

For this reason we will be speaking with brothers from Barquisimeto, where, God willing, I will arrive with my wife next February 15, where we will make compromises and from there we will travel to Valencia. The brothers of Barquisimeto are very willing and cooperative with the work of God and we can count on the support of them for this work. As we have spoken, probably before February 15, to Valencia has arrived the brother Orlando Vargas, from Barquisimeto, to help with this work.

It is possible that the brothers of Maracay, Aragua State, also collaborate. Barquisimeto and Maracay are cities close to Valencia, which is located in the middle of both. Then we'll talk more about this activity.

2.- Santa Elena de Uairen.

Santa Elena de Uairén is a border town located southeast of Venezuela, in Bolivar State, and this city is also the capital of the Gran Sabana municipality.

It has a rich pluricultural charge made up of Venezuelans, Brazilians, Germans, Guyanese, etc., in addition to the ancestral touch and mystical indigenous culture (ethnic Pemón), inhabitants of the area before the foundation of the city.

The estimated population for the year 2016 was 55,000 inhabitants.

BASIS FOR WORK IN THE WORK. I am in contact with a family (a marriage, a teenage son and three children), I have spoken with the lady named Maria. She has informed me that they come from an evangelical church, having received the pure gospel, was baptized for the forgiveness of sins by Brother Benito Holguin. Her husband Albeiro has not yet been baptized biblically, she still has the evangelical baptism. Sister Maria says that in her house three to four people meet to worship. They knew the gospel through Christians who have passed by and preached.

He told me that they need and thank visitors to teach them and help them to grow in faith and work. I am praying and planning a work in that city, brothers of Maturín have manifested their

willingness to accompany us in this work, this will be, if God permits, after I return from Barquisimeto to Maturín.

I am very grateful that you support this effort with your prayers, giving us the hand of fellowship, and also material support.

When I have already been in the place, I will send you more information, and I think brothers who teach the word, who can have some time (vacations) and economic resources, and can visit the place and be a blessing for the work, let him know For us to plan.

RADIO. We have restarted the transmissions of the program "Frente a la Biblia". In this month we arrive at edition # 595, with the help of God.

So far the present measurement. Before we say goodbye, I want to ask fraternally and humbly, that in your prayers to remember the activities and plans that I have spoken about here, we need the help of God to do his work, and the company and support of you is. Receive also our gratitude to be present in this work

by participating with me in this effort.
Let's keep praying for each other.
If God allows, it will be until the next edition,
meanwhile, we want the Lord to continue to bless
them richly.
In the love of Jesus,
Antonio and family.
