Maturín. On Friday 23 I arrived at this place with my wife Milagros, our Antonio Jr., and our granddaughter Valeria. The same Friday we contacted several brothers and made arrangements for our activity with them. We were in Santa Elena from Friday 23 until Monday 26. This small and remote church has about 5 years making an effort to exist and to maintain itself. For now there is no full-time preacher in the area. There are 4 brothers who remain faithful, Luis Medina, María, Luis (young son of Maria) and Mario. They are temporarily brothers Leonardo Escobar and Patricia Rodriguez, they are a young couple of faithful Christians of Barquisimeto, they are there for work reason. Geraldine, Patricia's sister, is with them. The young brother Leonardo Escobar has a very good preparation in the gospel, which allows him to help with the preaching to the brothers. Brother Luis

Medina also makes his effort in preaching. Even though these brothers are geographically distant, I want to encourage brothers who preach to visit them.

NEXT

FIELD.

If God willing, and the circumstance of the country allow it, in the third week of July, I will be working in Puerto la Cruz, Anzoátegui State, with the church in this city, and a group of 14 brothers who decided to separate from the system liberal. My beloved brothers thank you for your prayers in favor of these activities and protection.
