

A: Elders and Deacons of the church.

From: Santos Palacios

Reference: Report of work August -September.

Church of Christ in Granada.

In this month, we give 25 studies, we have 2 contacts and one visit; was added a brother, his name is Jacinto Mendoza. In studying the controversies with our brothers, of the liberal church, he decided to once ask for membership in Grenada, where we are now working together in evangelism. For me and the work of the church, this is an important fact, because this brother is the one who preached the gospel to me and together we established the work in Bluefields and Rama City, at this time we worked on our own and so we gained the bread of each day. For 1993, I had to separate from those works because my two children were already born: Daniel and Claudia, and having no support I could not work full time for the work. These two congregations fell into the hands of the institutional church and we could not rescue them. The Bluefields split with the one-cup and the other part was taken by Forrest Park's institutional brothers Valdosta Georgia with whom I worked for 8 years until after analyzing the false teaching by reading the books of the Wayne Partain brothers, Bill Reeves, Jaime Restrepo and others, made the decision to leave them and now I am making the effort to bring the truth to my brothers, The church that I am visiting in Bluefields also come from liberalism, I am teaching all the men and only need to convince two that resist. The preacher has already made the firm decision and are looking for a private house to meet, as the church that supported them with the building never gave them the deeds of law and already told them that the building is controlled by the institutional church of Managua. Soon I go there and I will be allowed to teach the whole church, to teach about what divides us. Brother Jacinto will now be my militia partner and we will try to convince the other brothers we baptized in 1990 and now they are with the institutional church of Valdosta Georgia. On the other hand, I inform you that Sister Maria Catalina died on September 17th after a long struggle with the disease and she was 89 years old and is now enjoying the consolation of the angels. I ask your prayers for this servant and for Máximo, Aurelio and Salvadora.

The Church in Rama City.

Here I am teaching again, three years ago I was visiting but the preacher was never defined, for now there are a good part of brothers ready to start again. These were people who Brother Jacinto and I brought the gospel to which is an advantage to be able to study with more confidence; among them there is a brother named Vicente Herrera, he is a teacher of Spanish and English. Returning from Bluefields we will be two days teaching and then return to work to Granada, Masaya and Managua. In Granada, for the next month, we will have intensive evangelism, taking advantage of the presence of Brother Jacinto Mendoza. In the past we did a good job together, now with better experience and greater knowledge we will do better. I ask your prayers for the good progress of this great work, to bring the good news to a world complicated by sin, false religion and intolerance. I greatly appreciate everything you do for the Lord and this servant, I hope natural storms have not wrought havoc on the lives of each of my beloved brother. I am always praying to God to protect them.

Your server and brother, Santos Palacios Mendieta.
