We are very grateful, because God in his great mercy keeps us on our feet, and gives us the strength to keep going in difficult times, sustains our spirit, and in the midst of the hurricane that hits this country, we continue in the effort to carry forward the work of God, which will not only prevail against the storm, but also, with the help of

Him, his church will continue to flourish and we will continue to spread the pure gospel of our Lord Jesus Christ. Beloved brothers, it is our wish that you are physically and spiritually well, that you are going through struggles or trials, that the Lord will give you the victory.

The Church in Maturín.

In the previous bulletin I informed about the members of the church who would emigrate to other countries due to the crisis that the country is living, indeed, Brother Julio Vargas is already in Quito, Ecuador, and next Sunday will be congregated and brother Jhon Aguirre will accompany Sister Rosmar, Julio's wife, announced that, God willing, next January, she and her two children would be reunited with Julio in Quito. Brother Rafael Farías, his wife and two

children are in Lima, Peru. Brother Javier Vargas, who had planned to go to Colombia, thought how necessary his help is in the local work, besides that he was temporarily leaving his wife and two children in Venezuela, finally, he decided to continue fighting here, close of his family, and helping in the work of God.

Strengthening and Building Up

The brotherhood has been distressed and saddened by the situation and by the exodus of the faithful brothers who have emigrated.

We give thanks to God for his revealed and inspired word, which, at this time, as always, remains a lamp at our feet and light to our path (Psalm 119: 105), and make us perfect, fully prepared for every good work (II Tim 3:16, 17). At this juncture we have been dealing with the church issues that describe the condition of having no faith, having little

faith and blessing in having faith. We study the attitude of our old brothers in difficult situations. Strength and edification we receive from God through his word.

Rescue.

A couple of new converts, Antonio and Dora García, who emerged from sectarianism, were intercepted two months ago by brothers of the liberal position, took advantage of the innocence and good faith of the new brothers, duped them and took them away. We deal with the invasive and abusive act with prudence and wisdom, avoiding all confrontation. When the time came to deal directly with the brothers, it was done with sincere love, in an atmosphere of peace, with humility and tender fraternity, and to the glory of God, justice and truth triumphed, the brothers were rescued from the liberal system.

With the help of God, next Sunday these brothers will be reintegrated into the church.

So far this edition. We keep on praying and asking for your prayers so that God may help Venezuela, out of mercy to your children, come out of this bitter and dark moment.

This server appreciates your prayers for this work, and the communion we have in the gospel.

If God allows, it will be next edition, meanwhile, we wish the Lord to continue blessing you richly, bye.

In love and faith in Christ,

Antonio and the family
