

To the elders and deacons of the church.

Work report on the work.

Of Santos Palacios.

May the peace and grace of our God be with all.

The work done so far is as follows:

Church of Christ in Granada.

We gave 25 studies, we have five contacts, we had 2 visits. Household meetings and attention to sick brothers.

We had the visit of brother Esteban Huasen, who along with the family visited Nicaragua, he lives on the border of the US. with Canada.

Collaboration with the church in Ticuantepe.

An afternoon of evangelism and teaching for the church, 6.P.M.

Trip to Bluefields.

In the last week of October I was working with the church of Christ in the city of Bluefields. We did restoration evangelism, reconciling 6 more brothers, now the church is composed of 19 people plus 12 children of different ages.

I am very happy because this congregation is totally defined to be faithful to God in sound doctrine. My work consisted, in these last three trips, in a trip in every month to visit house to house confused brothers since for them the teaching was new; because there is a liberal church and another of those who take dinner in one cup. Here the greatest success was to have convinced the preacher who is a humble and courageous man and who was able to tell the church and I withdraw from this doctrinal system to do what the word of God commands us. I ask for your prayers for him and the church.

Church of Christ in the Rama.

I was working with brother Jacinto Mendoza. He took charge of working with the brothers who decided to leave the error. This brother was meeting in Granada as there was no one to attend to these brothers, the church in the Rama, and not to leave them adrift, is that he decided to spend sacrifices and take care of them, because he has a wife and two children, he works in temporary work and in free time he does the work. When I came back from Bluefields I went there and helped him two days with evangelism and teaching. I ask for your prayers for him and the church. So that it can go forward against all opposition of the liberal preacher and some brothers who accuse us of divisions, of false doctrine and even of drug traffickers, because they believe that I pay the brothers who are slowly leaving the error, they do not know that Sometimes I have to sacrifice my budget for medicines and other things, so that the work can go on. But, honor and glory be to our God.

Church that meets in my house, in Managua.

Only the church is meeting on Wednesdays for teaching and on Sundays for worship. When I'm not there, the teachings are directed by my son Daniel and Brother Alcides Gómez.

Thank you I give to the Lord because I am very blessed in this work. Without the help I receive, I could not do my job. God bless you greatly for your love for evangelistic work.

Your server and Brother: SANTOS PALACIOS

Note: On November 13 and 14, I was invited to participate in a meeting promoted by the Church of Christ in Siuna to solve a controversy that arose from Brother Juan Suarez against a fund organized by Brother Ken Parristh and his wife Linda Parristh. . I participated with an exhibition, setting the example of the Copeland marriage; Vicky and Gary. (They also have an individual

fund to help Latino brothers.) Because it is exactly the same way that Brother Kent does, it is an individual collaboration for individuals, according to the order of Acts 5: 4. After several hours of sisterly dialogue, all doubts on the subject were clarified. Thank God now there is the communion that has been lost.

I took the opportunity to teach at the church in Ojo de Agua in Coperna Siuna.

I ask for your prayers for this server because when I'm away from home I can not keep my diet and in Siuna I ate very spicy foods (very spicy) that cause damage and also prostate problems.

I ask for your prayers for brothers Nelly, Aurelio, Máximo and Salvadora.
