March Report 2018

Beloved brothers.

Once again, we are in contact through this medium to tell you some details of the work we do for the Lord Jesus Christ in this area. Always grateful for the communion that they give me in my work of preaching the gospel.

My health.

I spent the month of March performing several medical exams, because the problem of hernias that had to operate was complicated, the doctor found two tumors in the abdominal area. Because I had a family history of cancer, it was necessary to perform many medical tests to rule out possible cancer, so I spent much of the month doing Echotomography, endoscopy, colonoscopy and blood tests. Thank God all the tests came back good and no carcinogens were found. Now I am dealing with an endocrinologist (diabetologist) because the blood glucose is out of control, after 10 years with diabetes the remedies were not having the expected effect, probably I should start using insulin.

The surgeon gave me a month to stabilize the blood sugar. In addition, I must lose 22 pounds, after that I will perform the surgery to remove the tumors and repair the place where the hernias are. The operation will be carried out in May. All this medical treatment has a high economic cost, only the operation has a value of \$ 2,300.

I request your prayers for this health problem that I face, I need health to continue the work of preaching the gospel.

BELOW, I INFORM YOU OF MY WORK IN THE PREACHING OF THE GOSPEL IN CHILE THE MONTH OF MARCH OF 2018.
