

My greetings to you all there at Fort Worth in the name of our Lord Jesus Christ.

As to my works in the past month;

June 18, one was baptized here named Jeffrey Baes; 28 years old; from Pentecostal; single; company worker. The first 2 weeks were very busy in the house to house here in the vicinity of Kalayaan, as well as in the social media, but my eyes were damaged due to overuse of cellphone.

On June 1, I posted on my Facebook that I'll take a rest in social media because my eyes were damaged by cell phone. Since that time, very seldom I have used my cell phone for the sake of my eyes. Although I regret because lots of my FB friends became my followers and sympathizers.

However, my works in Polosahe are growing, in fact their last attendance last week became 42 just because lots of sympathizers. Lots of works are awaiting for me there. Five among them are candidates for baptisms. Bro. Roy with an ardent faith reached the people, then I talked to them and preach to them using my cell phone.

This coming June 30, they'll have a gospel meeting there so the 9 local Churches of Christ will be gathered together except the One Covenant who will have an appointment with me their supporter named Ely Agustin just to solve the issue. Sister Ely is the niece of bro. Leopoldo Agustin. She is the supporter of Vella Amparo, Imos Cavite Church of Christ which I and bro. Leopoldo Agustin opened the year 1993. Because of her ardent faith she financed the chapel and support the preacher there. She also financed the chapel and lot in Polosahe. But unfortunately when bro. Leopoldo died, it became pro blood and now a one covenant. Sister Ely heard me before and hopefully she will hear me too by this time.

Me and bro. Chito Perez together with the 8 other preachers there talked together to strengthen the local churches there.

I attempted to go there the 4th of June but I got flu together with my wife and later our children. But due to the rainy days I couldn't bear that I do nothing in the Lord. My flu became acute, 2 days ago my doctor told me to confine in Pakil Hospital but due to the lack of funds, I refused. Instead, I do home medication. 2 pm I went back to Doctor for reexam.

My beloved mother passed away 3 days ago and a while ago, she was brought in San Antonio Cemetery.

The brethren here are doing well together with my family. Thank you very much for your trust and fellowship with me. You and your family together with all the brethren there are kept in our prayers.

In Christ,
Efren
