Thanks to our heavenly Father, we meet again through this means, and we thank the Lord for keeping us in our lives and in our faith. It is our desire that you be well protected, protected from the Most High.

Church in Maturín center.

As you know, this country is going through a difficult time that affects the lives of all its

inhabitants, it also affects the church, which as you know, many members in several cities have gone to other countries, including preachers. Maturín does not escape this reality, and the latest news is that another preacher is leaving us, one of the most active. It is the former Pentecostal "pastor" JAVIER VARGAS, whom I have spoken before, who is technician in setting and decoration of houses and buildings, and who before earned good money in his work, and could take good care of his family (wife, two school children and their mother). From the time he was baptized he quickly learned the sound doctrine, and very soon he was integrated in helping strongly in the work of the work until now. But unfortunately the crisis that the country is experiencing has ended with a work system. For some he has been struggling lasted, doing everything that comes to his hand, but hyperinflation devours everything he gets. This server has been

supporting his family according to what I have had, but the family need requires more economic resources. For all this, Javier has communicated with sadness that he is going to Brazil to work in his trade, where he already has contact. A Republic architecture office has offered him employment, but he decided Brazil to be closer to Venezuela. Javier leaves his family in Maturín and he leaves for Brazil starting next August 15th. We regret the absence of great help in the work. I pray your prayers for Javier and his family.

But, on the other hand, with the strength that God gives (Phil 4:13), most of the brotherhood continue here resisting with faith, with hope in God that this situation changes as soon as possible.

Modification. The evangelistic study meetings we do at night, in the city, have been affected by the crime that has been unleashed in the city, even brothers who are going to give support to meetings have been assaulted by street thieves. The people who attend classes at night mostly work on the day. We are doing the study plan for day classes. People who work during the day may attend when they have days off and / or vacations. We pray for all these things.

So far this newsletter. Beloved brothers and sisters, be assured that we appreciate and appreciate your prayers, your fraternal support and especially your participation with me in this effort for the work of God.

God willing, it will be until the next edition, meanwhile we wish the Lord bless you richly, goodbye.

In the love of Christ,

Antonio and family.
