

: The elders and deacons of the church.

From Santos R. Palacios Mendieta, evangelist of the church of Christ.

Dear brothers, my report of the work of the last three months of the year 2018 is as follows:

In October I did my job as usual, but in November due to the illness, I stopped going out. I have maintained communication with the brothers only through Facebook and telephone. Only in my house have I been meeting with the church that meets here in Managua.

In this new year 2019 we have plans to do strong evangelism; We are already planning how to do it so that it works out better. We hope, by the grace of the Lord, to achieve rich fruits. Brothers have returned, because of the political and social conflict that the country is going through, they have left because of economic need and fear of losing their lives. Also some visits went away, but thanks to God the brave ones who stayed have not stopped meeting and there is enthusiasm for this new year to work together for the cause of Christ, besides recovering those who have left to take the gospel to others people, the gospel of peace in the hearts of men of good will, who put their eyes on the things above because those that are seen are temporary and end. We have literature that I have managed to achieve and some treatises that I have prepared to distribute. I always ask for your prayers to continue recovering and for the work that must be done. The world is getting complicated with wars and rumors of war, we pray for peace, but true peace is lived when Christ our Lord is in the heart and when each human being obeys the gospel and is taught by the word of God, he learns to live with an inner peace that surpasses all understanding.

I will always be very grateful for so much kindness for this servant, the brotherhood to which I gladly serve. God bless you. His servant and brother: Santos R. Palacios Mendieta.

Note: Regarding the illness that I suffer I am like the boxers winning in the cards by a point, and little by little I have to earn more points
