Beloved brothers, we thank God that we have begun this new year alive by the will of the Giver of life. Thank you Lord for the life. It is always our wish that everyone is well in every way. We started this year with circumstances in the country that make us depend more on God and in constant prayer.

The Church in Maturín centro.

Good mood. We are very grateful to our God because in this time all the brothers have received good courage to overcome the obstacles to reach church meetings due to the lack of sufficient public transportation. Now the situation of the country is more critical, but the brotherhood understands that we are in the hands of God, and take more strength to move forward.

Evangelism We are organizing Bible studies at home with new contacts who are motivated to study the Word of God. We pray for these souls.

Help in the service. In this time when several brothers who helped in the services and work of the church have left the country because of crisis, it is

integrated into helping in the exposition of the Word the young Antonio de Jesús Lira Bello. He had time already helped in the direction of the services and in the direction of the songs. We are grateful and happy with God for this help.

The family left. Not long ago I reported that Brother José Javier Vargas (a Pentecostal "pastor") who helped a lot in the church; He went to Brazil to work because of the crisis, he left temporarily because he had left his wife and two small children here, but he made a change of plans and called his family, which is currently heading to Brazil. We pray for them.

So far this newsletter. Beloved brothers, I am very grateful to

be with me and participate in this work. For your prayers and encouragement. Let us continue to pray for one another and for Venezuela, particularly in this acute situation. If God allows, it will be until the next edition, meanwhile, that God continues blessing us. In the love of Jesus Christ,

Antonio and family
