

To: Elders and deacons of the church.

From: Santos Palacios Mendieta.

Reference: Evangelistic work

Dear brethren This is the report of the work done to date.

Evangelism done with the support of the men.

We are visiting contacts who are coming to the meetings on Sundays. At the moment, we have 2 contacts who are receiving us in their homes, among them is the daughter of sister María Catalina who died two years ago. Here are two people who study and one of them is showing positive.

Restoring estranged brothers, we have already achieved the restoration of a marriage, we hope that others will be added.

Teaching in the church.

The Sunday meetings are improving, in the middle of the anxiety because of the political problems, we have advanced a lot. I am teaching in the hour of classes, the courage of the church of the first century that is our example. In the sermon topics of encouragement or sermon of subject.

On weekends, from six to eight o'clock at night, teaching on doctrinal issues what the sects believe and how to refute them. These days I stay at the brothers' house, since at that time of night there is no transportation for my return to Managua and I do not have my own transport for it.

Teaching for boys learning to debate and looking for topics according to the needs of the church at the time.

I ask for your prayers for my health, I have not healed completely yet, but I have improved a lot and I can go out and do my work more calmly thanks to God and the help I receive from you without which I could not do the work fully.

Your servant and brother: Santos Palacios Mendieta.
