Family mourning. On the 24th at 3 pm, my father-in-law, brother in Christ Luis Ramón Bello, father of my wife Milagros, expired. My father-in-law was 85 years old, he was very healthy, but two ACV (Vascular Cardiovascular Accident) diminished him and exhausted him until his existence in this world was extinguished and he flew to the bosom of Abraham. He advanced us victoriously. Milagros stayed with him until the last breath and closed his eyes. Our strong hope is based on Christ - God will wipe away every tear from their eyes; and there will be no more death, nor will there be any more weeping, or crying, or pain; because the first things happened- Apc. 21: 4.

er

Church in Maturín center.

The brotherhood goes ahead with the faith held high. Thank God for now no other brother has emigrated from Maturín.

Evangelism Among the people with whom we are in contact with evangelistic interest there are some for whom we thank their prayers for their conversion, they have shown good interest in the Bible studies and visit the church meetings: Mrs. Semiramis Lara, she is A professional who left the country to accept a job abroad, has finally decided not to leave and opt for an offer of a position in the Mongicas State Judicature. Semiramis has been practically Catholic, she has now expressed her intention to become true Christian. She has let us know that her husband (whom you do not know) also wants to study the Bible. An oil engineer and professor of academic music (classical guitar) and practically Catholic, he is already expressing his disappointment with the Catholic teachings he has received. So I reiterate my prayer request for these people.

More help in services. The brothers who received training are already helping in public preaching to the church and in the direction of services and songs. We give glory to God "because it is God who produces in you both the willing and the doing, by his good

pleasure" (Phil 2:13).

So far this newsletter. Beloved brothers thank you very much for being with this server with your participation in this effort and your prayers for the work of God and for Venezuela.

If God allows, it will be until the next edition, meanwhile, we ask that God bless all of us richly, goodbye. In the love of Jesus,
Antonio and family.
