

For elders, deacons and the brotherhood

Evangelism report by Santos Palacios Mendieta evangelist of the church in Granada, Nicaragua.

May the grace and peace of our God in Christ be with all.

I have to report the evangelistic work that by the grace of the Lord I was able to carry out until this moment, together with Brother Francisco Martinez and the support of my family, above all of my beloved son Daniel Palacios.

#### Church of Christ in Granada.

Evangelism of visitation and teaching to relatives of brothers on May 26 was baptized for the forgiveness of their sins the now sister Scarlett de Fajardo wife of brother Humberto Fajardo, by the grace of the Lord now the whole family is in Christ because, before baptized the daughter of the marriage. (Alisson Fajardo).

We continue working on the visitation of brothers who, because of the political and social problems that the country is experiencing, have moved away, and for the most part they have returned.

#### Meetings in my house Managua.

We have been blessed because another brother is coming to collaborate, he is from Managua and a daughter of his requested membership to meet us, here in my house when I am not my son holds meetings together with two more men.

#### Collaboration with the church in Masaya.

I attended the teaching one Sunday, this is where Brother Francisco Martínez preaches some brothers.

#### Collaboration with the church in Bluefields, Loma Fresca neighborhood, North Caribbean, Nicaragua.

I had to travel twice in this period on the last trip I had my son Daniel accompany him to fraternize with other young people and encourage them, he is very useful in the work for his example, it was of great benefit both for him and for the young brothers.

I have traveled more often for the reason that I am giving training to the men and especially to the preacher who in turn is visiting a sister congregation located in the Caribbean.

The name of the place is wawachan in Miskito dialect, I know several men of that congregation and I have been invited to expose the sound doctrine, one of them is supported by the institutional church of Forrest Park Valdosta Georgia, and has not agreed with what I believe and teach, but as happened with the church in Bluefields most want to know more, for this reason I have planned to visit them at the end of July I will go in the company of brother Lorenzo preacher in Bluefields, this costs me a lot of money Because the trip is distant and in winter only boats can travel and has a high economic cost but it is necessary to do so, my Lord has blessed me so much that I am still a useless servant. I ask your prayers for my health and strength.

It is all for the moment, requesting your prayers for our government and other politicians to reach understanding, and so the local churches can work more quietly.

His servant and brother Santos Palacios Mendieta.
