

Greetings to you and to your family together with the brethren there in the name of our Lord Jesus Christ. Regarding to my works, one precious soul obeyed the gospel. His name is Miko, the young fine man in Liliw. And hoping that he become my good partner in preaching there. Previously he was a Born Again “The Redeem Church” Liliw and Jasaan are neighbor town in Sta. Cruz Laguna. For the meantime we hold our services at Liliw in the house of bro Ading because it’s near the road. So that we don’t need to walk for almost one kilometers. After the road started to construct, it will be easy for us to go and start the services at Jasaan again. Also, the plan for the construction of chapel is near because bro. Lino Villanueva donated the lot for the chapel. We’re starting to process the building permit, and after that we will construct a small chapel at start. In God’s will, before the end of this week, we can start the construction of chapel made up of bamboo. And all the Christians here in Kalayaan were suggested to attend there, because they all wish for the permanent service place of worship.

After the construction of the chapel there, then that’s the time to construct a house for my family beside the chapel.

Jasaan, Sta. Cruz is almost 29 kilometers away from here in Longos, and in God’s will by the end of December, I’ll take 1 unit of multicab and give a down payment. It’s 15 thousand down payment with 3 years monthly regular payment of 7,000. And it’s a great help for my ministry. It has a sitting capacity of 13 persons, so the members can go along with me preaching in a near towns at Jasaan.

Again, about my work in the past Quarters. This past two quarters of June were busy in preaching and teaching to the neighbors and where my feet carry me. Also for house to house visit for the brethren and non-Christians. Also for the Sunday service here in Kalayaan and afternoon at Liliw and the midweek bible study.

I also meet the “ Dating Daan” member in bro. Jun (he’s Deaf) and we had 2 hours discussion, and later on he was convince the right true Church of Christ is in the new testament. But his baptism is in future according to him.

In Jasaan, Sta. Cruz, I met the Brgy. Captain and heard my preaching we had lots of things discussed according the faith, belief and bible... also the barangay project specially the barangay road going to Pila, Laguna witch will be passing through the Church side there at Jasaan. And also I asked how to apply for the electricity there. Because that area is not yet subdivided and developed.

June 21, I and my wife went to Pakil Hospital for her checkup. And because lots of patients there we wait until 12:00 noon. The doctor said that she need to rest and take her vitamins and medicine for her heart.

June 22, while I'm preaching to the field, a muslim come and we had a sharing about the gospel of Christ and the kingdom and the salvation. Our sharing ended until 11:00 in the morning. HE agreed with me and promised to return for more and for the sharing about salvation.

June 23, after the Sunday service in Longos and had lunch, we move to Jasaan Church using tricycle of bro. Narcing for Sunday service there. And after that we move for door to door preaching. One old woman who were entertained us well. She became interested and heard us within 3 hours. She accepted us for 3 times but her daughter is against us and the gospel we're preaching because she is a Catholic fanatic. And because she is the breadwinner of the family she listened to her daughter.

We resume our midweek bible study and Sunday service in Liliw. And hopefully through the influence of bro. Ading and bro. Miko some people there will be enlightened too, and obey the gospel. And in God's will the residence of Jasaan will obey the gospel too.

About my works here in Longos, same bro. Alfonso and Bro. Bicbic died last year. I had a hard time to preach here in Longos because they're so fanatic with the Catholic and they have so much fun observing traditions of man. Like Fiesta's and etc. There are 5 families were constantly hearing the word of God through my preaching. They were 8 in the Ochoa's family, the Julio's couple, and 3 members of Evanya's family and 3 members of Agana's family. They're all willing to hear the word of God every time I'm always welcome to their homes...

Before I forget, I'm also preaching in Jasaan tricycle drivers which I always renting going to brgy. Jasaan. And invited me to their house for their family to hear the Gospel also. And maybe upon my coming there. He is good and fine mine. I always share the word of God wherever I go. I'm happy to share my knowledge from God. Especially to those who were interested.

In social media, I wonder if my auntie Adia was like to the post of bro. Bobby Williams. There was really a great changes in her mind... and hopefully that one day, she will ask for baptism. Just because all our topics now is for new generation. Titus 3:5.

Darius, the brother of bro. Jason Polintang previously agreed with me that the Church of Christ was founded on the day of Pentecost in Jesusalem; and that faith only was wrong; that Christ is not the gospel instead, Christ means king, priest and prophet. And this Jesus office was happened during the day of Pentecost. Before, he believed that Christ is the gospel. So therefore the church begun the personal ministry of Christ on earth. .?

Through the help of social media, specifically facebook and messenger... lots of my fb friends specially the non-Christians were interested to hear the gospel too. And I take that advantage to preach the word of God and sending them some articles of bro. Ron Hallbroke, also came from bro. Mike Huff and bro. Williams. Although we haven't have a chance to meet them personally, especially my cousins and friends meet in facebook in the different countries and lots here in the Philippines.

The rest of my days which not documented by photo were busy in door to door preaching here in the vicinity of Kalayaan. The Sunday for services and Friday for midweek bible study here.

Brother, please extend my thankful to the brethren there at Fort Worth. For the constant trust and fellowship with me. Thank you also for the resent support that you're giving. We're constantly praying for you and your family, and also the brethren there for good health and more physical blessings and spiritual too.

In Christ,

Efren

Ps. I apologized bro. for the delay of this report because of the internet problem here.
And it's a blessing that it was fixed now. Thank you bro. for your understanding.
