It's nice to communicate again. Thanks to our God that by his will we continue in this existence serving and worshipping him. And glad to meet again.

In the midst of the difficulty our country experiences, faith, joy and hope is only in Christ.

Church in Maturín centro.

EDIFICATION. DOCTRINE.

This time it was time for the teaching of the doctrine and building of the new converts.

OPERATING MAINTENANCE AND IMPROVEMENT.

In this month a group of brothers was organized to do maintenance work and improve the colors of the paint on the walls of the meeting room. The work was supported and encouraged with the participation of several brothers and sisters. The group of brothers participated by providing the necessary paint, materials and utensils for the work. There was collaboration for food and a group of brethren prepared food. In two days we did the work and the room was with a better presentation and the brothers all happy.

VISITING CONTACTS.

The non-Christian people with whom we are in contact for evangelization, this month visited the church meetings in greater numbers in a show of their interest in the word.

So far this newsletter. As always we express our gratitude to you for the communion you have with this server, for your prayers and love that we have in common for the work of God.

Dear brothers, in this time when the situation in our country has become more difficult, it is also time to continue praying for Venezuela and particularly for each other.

If God allows it, it will be until the next edition, while God bless us richly. Goodbye.

In the love of Christ,

Antonio and family.
