

My greetings to you together with your love ones in His divine name.

As to my works in the past 4 consecutive week. In Jasaan, 3 were baptized as have seen in the pictures. Although my eye is not yet totally recovered but I am doing my best to do my responsibility. In San Antonio, I went there three times for visitation and preaching, but I concentrated more my time in Jasaan in according to my ability which is very limited by this time.

My doctor warned me for a long trip and prolonger trip but I choose the air conditioned buses, so that my eyes will not be exposed much in the air and pollution. I have two remaining check-up and the last one is to laser my left eye. The doctor and hospital here is not expert like doctors and professionals at Saint Luke and Makati Medical Center. But anyway, they saved my eye. Thanks be to God. Praise Him! Brother Jim is also the one who helped me together with his two co-workers. Once more, thank you very much my dear bro. Jim!

Bro. Jim is also the one who helped me to have support from the beloved brethren there at Fort Worth Texas as well as in Loop, Lufkin Texas. Thank you very much my dear brethren in Fort Worth, Texas for increasing my support last year and some other years. Thank you very much for constant trust and fellowship on my little ability my beloved brethren there at Loop, Lufkin, Texas! I am always praying for your safety and comfort, all of you my beloved brethren.

As of now, we are suffering from ash fall from volcanic eruption yesterday of Taal Volcano. We are praying for the safety and comfort of all the people at the vicinity of Taal Lake, especially the brethren there.

I have no much pictures by this time my dear brethren.

Hopefully for this year, I will be able to work more. Especially when the road in Jasaan is constructed next month. The Barangay Captain confirmed it on me, so that it will be easier to transport back and forth there.

As of now, the brethren men are busy in making pre-cast for the wall of bro. Lino lot. He want to make sure that the animals will never destroy the plants as well as another projects there. They are preparing for the gate of the chapel and also for the vehicles. Maybe before the end of this year, I will erect our house to the lot which bro. Lino gave me. Bro. Lino gave lot not just to me but also to other brethren who have no lot, he kindly gave them too.

Thank you very much my dear brother for constant trust and fellowship with me.

In Christ,

Efren
