

To: the Elders and deacons of the church

Santos Palacios Mendieta evangelist in the church in Granada, Nicaragua.

Work report.

Church of Christ in Granada.

We follow forward in the work entrusted, we are doing evangelism of restoration and preaching of the Gospel, visiting the homes of contacts and visits.

On Sunday, March 3, the young Allison Fajardo, daughter of our brother Humberto Fajardo, was baptized, all for the honor and glory of God, she already has a partner and we will continue to take the Gospel to her life partner so that one day she will not Far away, he can also obey.

We also have meetings in the homes of each family, this is a good method of carrying the message to the family of those who are already in the kingdom, we ask for your prayers so that this continues to be successful.

We have classes for men, we are studying the denominations; what they believe and how to refute the false doctrine of those sects.

Meetings in my house, Managua.

We always continue with meetings on Wednesdays for teaching and animation

On Sundays meetings to worship, this month a sister was added who traveled from outside Managua to continue her studies that she had left for the social and political causes that the country is going through. Also a young man is visiting us he is receiving Bible studies.

Visit to the church on the south Caribbean coast of Christ Church in Bluefields.

As you remember this congregation in 2018 this servant had the joy of helping you to know about the deviations of the liberal brothers I was invited to teach about the service of women in the church, I was invited for the reason that a liberal brother was added began to disturb the doctrine that women should keep silence in class, and also should not teach children, we had a class on this subject so that the church knows more arguments to defend the faith, in addition to the classes take advantage to preach at home meetings.

I ask your prayers giving thanks to God because little by little I am recovering, from surgery, now I am treating the problem of cirrhosis with natural medicine.

We need your prayers for our brother Aurelio Mercado, his age is advanced and chronic diseases make his life more difficult, he is 83 years old.

We also need your prayers so that our government can solve the serious problem that has the country increasingly bad in the economy and poverty, we know that many countries are very bad, but also sometimes those who govern add more burdens and this brings bitter consequences.

Thank you very much for collaborating with this server to take the gospel to the people where they can find peace.

His servants and brother: Santos Palacios Mendieta.

Note: I do not send many photos because they damaged my cell phone
