

Dear [Brothers](#)

Hope this email finds you and your family doing well , we are all well winter months are starting now , so days are a bit cooler which is nice in our climate .

I am writing on behalf of our brethren in Zimbabwe , I sent a full drought update around the end of March I needed to raise \$20160 to feed the brethren that needed help in Zimbabwe for the next period of 4 months .I delivered the last maize last week in Zimbabwe and was trying to secure enough funds so that on my next trip in which will be in next week I can once again secure the maize and the price for at least the 4 months for now .

I have managed to raise from March \$9020 balance still needed \$11140 .I am asking for any help towards this if in any position to help at this time .

I would really appreciate your effort in this , so we can help these brethren .

Please greet your family and all the good brethren

I thank you in Advance

In Christian Love

Warren

Ivy also sends her love and greetings to your wife and family .
