**Prayer for widowed sister.** In the previous bulletin I informed about the death of my wife's father. Leave with us his wife, sister in Christ Josefina (widow) of Bello (After more than fifty years of marriage), mother of my wife Milagros, who at this time will take care of her attention and care. As you can infer, Josefina is elderly, in addition to being affected by her husband's departure, she also faces health problems, including high blood pressure. For all this we beg and we thank your prayers in favor of her health and of us who will be taking care of her.

**Church in Maturín center.**

Dear brothers, we thank God because even though the country lives internally, in the non-Christian sphere, a month with an atmosphere full of many war drum noises, the brotherhood in Maturín as in all Venezuela when, he gathered peace that Christ has poured into our hearts, and even when the country ran out of fuel, even brothers could not use their cars for lack of gasoline, and without cash in the hands of the public, the brotherhood heroically made extraordinary efforts to reach the meetings of the church, and in the peace of Christ worship God.

**Evangelism:** In the same way, the people whom we are stimulating with the gospel for salvation, remain in good spirits to continue hearing the word, four of them accompanied us in the last worship meeting of the month.

Beloved brothers, let's continue praying for each other, and also for Venezuela so that God can continue helping us and that the country can get out of this hard test.

So far this newsletter. My brothers receive my repeated gratitude for their participation with me in this effort for the glory of God and the benefit of souls. If God permits it will be until next edition, meanwhile, we ask that God bless us richly, goodbye. In the love of Jesus,  
Antonio and family.
