September 30th, 2020.

Dear elders, I hope that my letter finds each and every one in good health, and enjoying all the blessings from our heavenly father. My family and I are living one day at a time, praying patiently for better times. We always be grateful with every one of you for your financial and spiritual support. Please keep us in your plans, and in your prayers.

As told you in my last report, we decide that it was time to start having worship services at the church building. For two Sundays the 6th and the 13th, we did just that. We had a blast, we were so excited and happy, not only for seeing each other but, for the fact that we had come there to worship God Almighty together. Several were missing, Alma Castillo was a no show, Adrian and Mayte were in Mexico for the passing of Adrian's mom. And Jose Olivares (I think we lost him) was also a no show, but Sister Idalia was in attendance. Also Marianna, Sister Torrez daughter was in attendance, she never visited with us before. We were so happy to have her among us.

But sadly, everything came to a halt very fast, we are back having services through Zoom again, only The Lord knows when we will do person to person again. My family were exposed to Covid-19. First was my 14 month grandson Michah, on September 13th after church we got together in our house to eat. Michah had running nose and high fever, the next morning my daughter took him to see his doctor and she find out he had covid 19. We all went to be tested, and Ana the baby's mom was infected, so it was my 9 year grandson Dominic. Everybody, thanks to our God are doing well but Michah and his mom still have the virus. Michah have been more that 12 days without fever, Ana only have this whopping cough left.

On Saturday September 26th I took my wife to the JPS Hospital because she had body aches, headaches and chest pressure. We find out on September 28th that she is covid 19 positive. She is home and stable, her body still hurt but she haven't had any more symptoms, and hopefully she can start feeling better soon. Only the Lord knows what will happen with me, we know that we are on His hands. At this time, I only have this whopping cough and headaches but no other symptoms. I have no appetite, man, all the good Mexican food that I am missing. I have lost some weight too, but losing is not that bad.

My brethren, please keep Brother Adrian Rangel in your prayers. Several member of his family in Mexico are infected with covid. Adrian himself comeback home, and in now he is positive too. He is home doing well, please keep him in your prayers, his wife Mayte and their 3 kids.

My Brethren, I will keep you informed and how things going. Everybody else are doing well. Please keeps us in your prayers, my Son Juan Jr and his family will be re-tested on October 5th. Ana and her baby will go back also next week. Rosie and Miguel her husband are doing well, please keep all my family in your prayers.

May God bless every one of you.

Juan Antonio Salazar.
