Dear brothers and sisters, I greet you in the love of Christ with a heartfelt desire that you may be well in faith, in the health of your bodies and in all things.

STRONG AND DANGEROUS MONTH OF JULY FOR THE FAMILY. At the end of last May my wife received the news that her mother, who is 80 years old and suffers from diabetes and high blood pressure, and lives in Caracas, was in very poor health, Milagros (my wife) and Anmixi (our daughter) decided to travel urgently from Maturín to Caracas to help her (she is a recent widow and lives alone).

HERE IS THE DILEMMA. We knew that some relatives of Josefina (my mother-in-law) had been at her house and were sick with Covid 19. A decision had to be made, they went to Caracas taking biosecurity measures, and still run the risk of catching it and helping Josefina, or not to go and Josefina died, because she had already (temporarily) lost her memory. She was quickly brought to Maturín where she was treated urgently by doctors, thank God she recovered, now she is well, and we have her at home under our care. Ah, but the unwanted happened, Milagros and Anmixi caught Covid 19. A few days later they were suffering the effects, but they also infected Antonio jr. (our son). All three have been very affected. Milagros was more strongly attacked, she was really very bad, one day it seemed that she was dying, until she said goodbye to the family, that destroyed me because I know that this virus is deadly. Thank God there was quick medical

attention, the Dr. reinforced the treatment and began to improve. God has been merciful to me, with my mother-in-law and Valeria my granddaughter (9 years old) we remain healthy, although we are in the same address, of course we keep the biosecurity and isolation measures in the house. The three are still under medical supervision and resting. Thank God they have a remarkable improvement, many brothers have been praying and without a doubt, God has answered the prayers.

THE CHURCH IN Maturin Centro: The church continues with its respective activities. The classes that I was leading with great blessing and success in the houses for the edification of the brothers and for evangelization, have been temporarily interrupted for two reasons: 1) since there is Covid in my house, I have to be isolated from people until to confirm that I am healthy. 2) I have had to dedicate myself to caring for the sick. I hope to God that very soon, all this will be normalized within the limits. It is important that in this time of pandemic we continue to pray for each other, and for the work of God. My gratitude for his prayers, attention and communion with this servant. POST COVI 19 NOTE We thank God, because for this date of this month of August when this bulletin reaches you, the level of affectation of those infected by Covid 19, can be considered, post Covid 19 stage. Everyone is out the dangerous. Of course, we must continue to maintain biosecurity care. No doubt God has answered everyone's prayers, to Him be the glory.

In the love of Christ. Antonio and family.
