

Efren Algaba-Philippines- Jan. 2022

My greetings to you, to your family and to all the brethren there at Loop in His divine name.

As to my work in the past 4 weeks, I'm very sorry that there is no conversion due to the first and second week, we are all affected by covid known as omicron, severe coughing, high fever and vomiting. I'm so thankful that Doc Willie Ong and Garry Sy in facebook is expert to this kind of disease, we just obey their advice and we are all healed, we also self-quarantine at home, drinking of warm water with salt, taking anti-cough, antihistamine, biogestic and antibiotics. Actually Cynthia and her daughter were first infected, then after four days Faith and Eva, then my wife and I. Me and my wife were their attending nurse, although we were very careful but later on were infected as well. Only five days and we were healed. Our government declared a total lockdown here in Laguna and other parts of the Philippines due to lots of people we're dying and infected by the virus, although our Mayor Sandy Laganapan is my close friend but our Barangay Captain here in Longos is against to me due to the coming national election on May that's why Barangay Captain Adao strictly prohibited the door-to-door preaching and the barangay police are highly alert and mass gathering is strictly prohibited but I'm very thankful to our Mayor for he allowed us to assemble, he instructed the police to allow us together but every Sunday only, so my chance to preach is very very limited that's why I just concentrates my time to study lots of books sent by brother Ron, thank you very very much brother Ron Halbhook, once more my thankful to the donors of these books and reading materials, some of these books and reading materials were wisely devided to the qualified brethren. My work in social media were declined duo to my cell phone's problem, maybe i'll buy new upon the coming of my support.

As to Bayani Corpuz, the liberal was totally defeated but his problem is his support, I told him that God know all things, Math 6:33 etc., Our heavenly Father is the greatest provider, His hand are the brethren. His another problem is his flock and the brethren will comments against him, I advised him his flock is not a problem but what he can do is to explain to them the truth, "some of them will go to your side, your coworkers is not a problem, the problem is if you will not explain to them effectively the truth, we are the mouth of God to convert them and the great problem is you stay in the wrong church, of course you'll never be save, why? wrong information, wrong action and therefore wrong destination." I told him to think it over and james 4:17.

By the way regarding to lockdown with our town, we are praying fervently to become free again, I really missed my door to door preaching and I missed our assembly to our chapel in Jasaan, for the meantime we are assembling here in our temporary chapel at home, we are still lucky coz we are safe from severe covid-19, the family of brother Narcing and Chona's family and Ada's family, brother Lino's family were all infected by omicron as of now and I also instructed them, some of them recovered. This is very contagious disease so please pray for us my dear brother and brethren.

About my kidney problem, my blood chem on this coming Monday. Hopefully there's a great improvement... Because the ketoanalogues, I took double and daily I drink the young coco juice twice.

About my red blood, hopefully it will increased too.

Thank you very much my dear Elders for adjusting my support from quarterly to monthly... Thank you too for the increased of my support... It is very timely for our hard situation... Of course my thankful too to all the beloved brethren too... Thank you very much for your great sacrifice!... Thanks too brother Mark, for your effort and effectively doing your job. May God continuously bless your souls. You are all in our for prayers.

In Christ,
Efren
